Bic Runga • Drive

G Bm
Don't stray, don't ever go away
C [optional Am]
I should be much too smart for this, you know it gets the better of me
G Bm
Sometimes, when you and I collide
C D
I fall into an ocean of you; pull me out in time,
Em Bm
don't let me drown, let me down
C D
I say it's all because of you

And here I go, losing my control
I'm practising your name so I can say it to your face
It doesn't seem right to look you in the eye
Let all the things you mean to me come tumbling out my mouth
Indeed it's time to tell you why
I say it's infinitely true

G D Em Bm D
Say you'll stay; don't come and go like you do
G D Em Bm
Sway my way; yeah, I need to know all about you

And there's no cure and no way to be sure
Why everything's turned inside out instilling so much doubt
It makes me so tired; I feel so uninspired
My head is battling with my heart, my logic has been torn apart
And now it all turns sour
Come sweeten every afternoon

[Chorus twice]

D C
It's all because of you
D C
It's all because of you

And now it all turns sour, come sweeten every afternoon
It's time to tell you why, I say it's infinitely true

[Chorus twice]

It's all because of you [repeat to finish]
